

LF-100 - 5" Label Finisher

LF-200 - 8" Label Finisher

Features

- Optical camera designed to read only one black mark for each cut layout, optimizing cutting speed and synchronization.
- Media path with ultrasonic sensor to ensure precise media tracking and speed, resulting in precise die cuts.
- Inexpensive, multi-edge blades extend cut life and reduce frequency of replacement.
- Compact, tabletop footprint with clear operator access to load/unload media and monitor finishing operation.
- Windows-based cut manager software for importing die lines from Adobe Illustrator or CorelDraw. Interfaces directly with optical camera to ensure precise, repeatable cut jobs.
